Levels of Completion/Certification

Course Completion

One attends the course and partakes in all of the activities, including the testing. They do not pass all of the tests at the minimum requirement.

Level I (Instructor)

The same as above; one passes the tests at the minimum level of 75%. There are four tests administered--Level 1 Referee Exam, Practical test, Hitting/Set-up test, and General information written test.

Level II (Advanced Instructor)

The same as above; one passes the tests at a minimum score of 83%. Must demonstrate the ability to teach at the beginner and intermediate levels, and have strong demonstration skills.

Level III (Professional)

The same as above; one passes the tests at a minimum of 90%. Must demonstrate the ability to teach all levels of students and have a history with racquetball instruction. (Minimum of 2 years).

Clinician

Must be at Level III status. Only open to the elite instructors in the industry who have worked with individuals, small, intermediate and large groups, and have helped with, or instructed racquetball camps.

AmPRO CERTIFICATION BENEFITS:

Insurance policy covering you on AmPRO related training and events

Method for players to contact you for coaching or lessons
Immediate support response (within 24 hours) to questions and queries
Customized AmPRO Logo business card templates for marketing your services
Directory of AmPRO Certified Instructors for advise or lessons

TESTING

Level I Referee Exam is part of the AmPRO Course, but a separate license. The passing of this exam is the initial requirement that starts a one year time frame to meet the number of matches refereed and assessment matches as defined by the USAR to become a certified referee.

Level I Referee is subject to one passing the test at a minimum of 85% and being signed off on ten sanctioned tournament matches by a state board official. Upon registration, this test is available to the student. Open book format.

Hitting/Set-up test

A series of shots, serves, and feeds. Safety issues, location variations, height-speed-angle adjustments are integral elements of this test. Upon registration, this test is available to the student for review and practice.

Practical test

A condensed lesson of approximately 10 minutes given during the course by each student. Areas of concern are: organization, general knowledge base, explanations and demonstrations, error detection and solution offerings, and interpersonal skills.

Written test

An open book format exam which covers rules, strategies, lesson plans, technical aspects, and more. Upon registration, this test is available to the student.

Disclaimer: This program is being run by Jo Shattuck who is the administrator of a sanctioned USAR function. However, if you have any questions or issues regarding the content contained in this document, please contact Andy Pawlowski 386-679-8368 andypaw@attglobal.net
